

A cost-effective way to heat your home or office

QUALITY

Uncompromised product quality and reliability
50 year history

AUSTRALIAN MADE AND OWNED

Completely designed and manufactured in Australia
Australian owned family company

COST EFFECTIVE

Cheaper to install and to run your combined heating and cooling system when compared to a ducted reverse cycle air conditioning system
Flexible zoning options – save even more on running costs

WARRANTY

2 year comprehensive warranty

ENERGY EFFICIENT

5 star rating as per the Australian standard*

ENVIRONMENT

Low CO₂ emissions

Ducted gas heating vs reverse cycle heating

With energy prices rising, ducted gas heating has an edge on reverse cycle when it comes to both efficiency and performance.

COST EFFECTIVE

Save on running costs with flexible zoning options. Have complete control over individual comfort needs by setting individual room temperatures, as well as flexibility to heat only parts of the house in use by zoning your home/office.

BETTER PERFORMANCE

Reverse cycle works less efficiently when outside temperature drops. Ducted gas efficiency remains steady.

INSTANT WARMTH

Ducted gas reaches desired temperature much faster than reverse cycle.

COMFORTABLE AIR

Ducted gas won't dry your skin and eyes. It's a different kind of cosy warmth.

Braemar 5 star range

Ecostar® Non-Condensing 5 star 5.2 star

- Small cabinet for easier installation
- No drain required
- MagiQtouch® Controller
- Zoned-heating capable.

Model	Series	Stars	Gas rate (MJ/h)	Airflow @ 100 Pa (l/s)	Output (kW)	Standard controller	Length (mm)	Width (mm)	Height (mm)	Duct dia (mm)	Gas type
TQM5X20U	Ecostar	5.2	88	695	20.0	MagiQtouch	770	385	660	350	LPG
TQM5X30U	Ecostar	5.2	122	1050	27.8	MagiQtouch	880	510	660	400	LPG

In Australia, there is an Energy Rating Labelling scheme to help customers choose energy efficient appliances. For ducted gas heaters, the star rating system has a minimum of 1 star and a maximum of 6 stars. The performance results are independently tested by the Australian Gas Association (AGA). For more information, go to www.aga.asn.au.

Innovative MAGIQTOUCH® controller Touch screen technology

- Smart, sophisticated and incredibly intuitive, your MagiQtouch Controller makes operating your Braemar heating so simple.
- Discreet and modern design will blend seamlessly into the décor of your office or home.
- Flexible zoning – savings on running costs
- Zone your heating with MagiQtouch Controller for individual comfort needs in rooms/areas of your office/home.

Heat and cool with one controller

- Take advantage of your combined cooling and heating system from the same controller
- Available with Breezair and Coolair evaporative air conditioners.
